

Pedestrian Safety

Cross streets safely. Cross at a corner, using traffic signals and crosswalks.

Walk on sidewalks or paths.

If there are no sidewalks, walk facing traffic as far to the left as possible.

Don't assume that because you can see the driver, the driver can see you.

Look left, right and left again when crossing and keep looking as you cross.

Be a safe pedestrian around cars. Watch for cars that are turning or backing up. Parents and kids should hold hands in parking lots.

Never run into the street for a ball, a pet, or any other reason.

Walk, don't run, across the street.
